

SMART TEMPERATURE
AND HUMIDITY METER

Connected AirWits

Connected AirWits is a connected temperature and humidity metering device with ultra long battery life of five years.

This intelligent and small device measures and sends the temperature and humidity data once in 30 minutes, and uses the worldwide Sigfox IoT-network connectivity for data transmission, enabling very low lifetime cost.

The installation of the device is therefore extremely simple procedure, and requires neither special tools nor configuration operation.

Simple, connected, maintenance free, ultra low cost, powerful, accurate - the perfect solution for long term indoor temperature and humidity metering.

- *Plastic casing for indoor use*
